Able to fetch user stories successfully

The screenshot shows a web browser window with the address bar displaying 'localhost:5173'. The page title is 'Jira Connector'. Below the title, it says 'Connect to Jira using your email and API token.' A green success message bar indicates 'Connected to Jira successfully'. Below this, there are input fields for 'Email' (containing 'knrchemcare@gmail.com') and 'API Token' (masked with dots). A green button labeled 'Fetch User Stories' is visible. Below the button, a section titled 'Available User Stories (5)' lists four user stories:

- US-25 Employee Profile Employee Self Service Portal**
Develop an employee self-service portal where employees can view and update their personal information including contact details, emergency contacts, and work schedule.
Type: Story
- US-24 AHC Reports and Analytics Dashboard**
Create a comprehensive dashboard for AHC managers to view reports, analytics, and insights about employee health and coverage.
Type: Story
- US-23 Secretary Dashboard and Task Management**
Build a dashboard for administrative staff to manage tasks, schedules, and communications efficiently.
Type: Story
- US-22 User Authentication and Authorization System**
Implement a secure authentication system with role-based access control for different user types.

The Windows taskbar at the bottom shows the search bar with 'Type here to search', several application icons (Edge, File Explorer, Mail, etc.), and system tray icons including 'Hot weather', volume, and network status. The system clock shows '09:56 AM 27-06-2026'.
