}
```

BM25 Search

The screenshot shows the BM25 Search interface in the knr chem's Workspace. The interface includes a sidebar with a file explorer, a main workspace with a REST client, and a right-hand panel with a chat and a search bar.

The REST client shows a POST request to `/search/bm25` with the following JSON body:

```
{  "query": "Edit contact info Registration",  "limit": 10,  "filters": {},  "fields": ["id", "title", "description", "steps", "expectedResults", "module"]}
```

The response is a JSON object with the following fields:

```
{  "expectedResults": "UHID should get generate for Campaign Registration",  "automationManual": "Automated",  "priority": "P1",  "risk": "Low",  "createdAt": "2026-07-31T21:09:34.483Z",  "score": 11.535479545593262}
```

The right-hand panel shows a chat interface with a search bar and a chat area.

Hybrid Search

The screenshot shows the Hybrid Search interface in the knr chem's Workspace. The interface includes a sidebar with a file explorer, a main workspace with a REST client, and a right-hand panel with a chat and a search bar.

The REST client shows a POST request to `/search/hybrid` with the following JSON body:

```
{  "query": "Edit contact info Registration",  "limit": 10,  "filters": {},  "bm25Weight": 0.5,  "vectorWeight": 0.5,  "bm25Fields": ["id", "title", "description", "steps", "expectedResults", "module"]}
```

The response is a JSON object with the following fields:

```
{  "title": "Edit contact info",  "description": "Verify Edit contact info functionality",  "steps": "1.Launch the application\r\n2.Login to the application with valid credentials.\r\n3.Click on Patient Service Tab and select Registration from the drop down.\r\n4.Navigate to Functions->Registration->Edit contact info\r\n5.Enter the required input details like Uhid/From and To date and click on search\r\n",  "expectedResults": "User can able to see the PopUp Message like Role Resourceitem(s) updated successfully.",  "automationManual": "Automated",  "priority": "P1",  "risk": "Medium"}
```

The right-hand panel shows a chat interface with a search bar and a chat area.

After debugging and regenerated the groq key Test Prompt

The screenshot displays the Postman application interface. On the left, a sidebar lists various collections, including 'RAG Mongo Demo v9'. The main workspace shows a REST client request configuration for a POST endpoint at '((base_url))/test-prompt'. The request body is a JSON object with the following content:

```
1 {
2   "prompt": "Generate a test case for editing contact info in the Registration module",
3   "temperature": 0.2,
4   "maxTokens": 400
5 }
```

The response is displayed in the 'Body' tab, showing a 200 OK status with a response time of 1.45 s and a size of 1.67 KB. The response body is a JSON object with the following content:

```
1 {
2   "success": true,
3   "response": {
4     "raw": "**Test Case - Editing Contact Information in the Registration Module**\n\n **Test Case ID** | REG-EDIT-CONTACT-01 |\n\n-----|\n\n **Title** | Verify that a user can successfully edit their contact information (phone number, email, and address) after completing registration. |\n\n **Related Requirement(s)** | R-REG-03: Users must be able to view and edit their contact details from the \"My Profile\" page. |\n\n **Test Type** | Functional / UI |\n\n **Priority** | High |\n\n **Automation Feasibility** | Yes (can be automated with Selenium, Cypress, Playwright, etc.) |\n\n **Pre-conditions** | 1. The application is deployed in a test environment.<br>2. Test data user **test_user_01** exists and is already registered with valid contact information.<br>3. The user is logged out. |\n\n **Test Data** | - Username: 'test_user_01' <br>• Current Email: 'old.email@example.com' <br>• Current Phone: '+1-555-0100' <br>• Current Address: '123 Old St, Oldtown, OT 12345'
```
